<sup>(</sup>b) The components do not add to the total because institutionalised persons are not asked the "school attendance" question.

# Estimate has a relative standard error greater than 25 per cent and is therefore subject to sampling variability too high for most practical uses

<sup>(</sup>a) For scope of estimates, and definitions, see the latest issue of the monthly publication "The Labour Force, Australia" (6203.0).

<sup>(</sup>b) The components of the "le t school" category in the "not in labour force" column do not add to the total because institutionalised persons are not asked the "school attendance" question.
